ALMANACK AND TIDE TABLE.

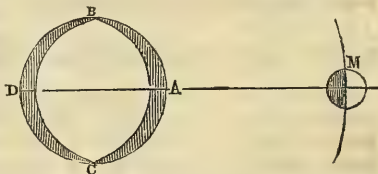

FROM JULY, 1849, TILL JULY, 1850.

THE daily rising and falling of the waters of the ocean are in general denominated Tides. The rising is called the Flood, or Flux; and, when it ceases to rise, High Water. The falling is called the Ebb, or Reflux; and, when it ceases to fall, it is said to be Low Water. The interval between the times of High and Low Water is called a Tide.

The Tides are produced by the attraction of the sun and moon, principally that of the latter object. The cohesion of fluids being much less than that of solid bodies, they more easily yield to the power of gravity; in consequence of which, the waters immediately below the moon are drawn up in a protuberance, producing a full tide, or what is commonly called High Water, at the spot where it happens. According to this theory, you would imagine that we should have full tide only once in twenty-four hours; that is, every time that we were below the moon; while we find that we have two tides in the course of twenty-four hours, and that it is High Water with us and with our Antipodes at the same time.

This opposite Tide is rather more difficult to explain than that which is drawn up beneath the moon. In order to render the question more simple, let us suppose the earth to be every where covered by the ocean, as in the following figure:

M is the moon, A B C D the earth. Now, the waters on the surface of the earth about A being more attracted than in any other part, will be elevated, the attraction of the moon at B and C being less; but still it will be greater there than at D, which is the part most distant from the moon.

The body of the earth will therefore be drawn away from the waters at D, leaving a protuberance similar to that at A; so that the tide A is produced by the waters receding from the earth, and the tide D by the earth receding from the waters.

The influence of the sun on the tides is less than that of the moon; for observe that the tides rise in consequence of the moon attracting one part of the waters more forcibly than another part. It is this inequality of attraction which produces full and ebb tides. Now, the distance of the sun is so great, that the whole globe of the earth is comparatively but as a point; and the difference of its attraction for that part of the waters most under its influence, and that part least subject to it, is but trifling. No part of the waters will be much elevated above, or much depressed below their general surface by its action. The sun has, however, a considerable effect on the tides; and increases or diminishes them as it acts in conjunction with, or in opposition to, the moon.

According to the calculations of the celebrated La Place, in his *Mécanique Céleste*, the mean force of the sun in raising the tides is to the mean force of the moon as 1 to $1\frac{1}{2}$; and Emerson, in page 423, second edition of his *Treatise on Fluxions*, calculates the height of the Solar tide to be 1.63 feet, and the height by the moon's influence to be 7.28 feet; consequently, the height of their joint force to be 8.91 feet. The height here calculated is supposed to be at such places where the sun and moon are vertical, and also in the equinoctial. In places at a distance from the equator, the height will be less as the latitude is greater. Further, their height will also be less according to the sun or moon's declination from the equator.

From what has already been remarked regarding the tides, it is obvious that when the moon is in Perigee, or at her nearest distance from the earth, she attracts strongest, and therefore raises the tides most. The contrary happens when she is in Apogee, or at her greatest distance from the earth, because of her weaker attraction. At New Moon, when she is in conjunction with the sun, and at Full Moon, when they are in opposition, the tides are raised by the joint attraction of both luminaries; and, therefore, will produce the highest, or what are called Spring Tides. And Neap Tides are produced by the difference of their forces when in quadrature. The Spring Tides take place about two days after Full Moon, and the Neap Tides about two days after the first and last quarter.

In consequence of the sun being nearer the earth at the beginning of the year than at any other time, his attraction will then be most powerful on the tides, and, should the moon happen to be in Perigee, their joint effects will produce the greatest Spring Tides.

The mean duration of the ebb and flow is about 12 H. 25 M., that is, half the lunar day of 24 H. 50 M., the period elapsing between successive returns of the moon to the same point of the meridian. Thus the sea in every place undergoes a flux and reflux as often as the moon passes the meridian, whether superior or inferior of the place; that is to say, twice in 24 H. 50 M.

The following Tide Table is constructed on strict scientific principles, from the very accurate Tide Tables of J. W. Lublock, Esq., London (the Tide Table in the *Nautical Almanack* for 1850 is also calculated from the same Tables), and will be found to be as correct as the position of our River with regard to its locality, the influence of the winds, and other diversified circumstances, either hasten or retard its natural current. Hence the time of the Tide by observation may not at all times correspond precisely with the time found in the Table.

These Tables are calculated for mean time, or the time shown by a well-regulated clock, reckoning from noon of each day. The Moon's Phases are calculated to civil time. The civil day begins at midnight.

THE following is a Tide Table of some of the principal Ports in England, Scotland, and Ireland.

The times of High Water at full and change of the moon, as given in this Table, are reckoned from apparent noon. They represent the actual times of High Water when the moon passes the meridian at the same time as the sun, or the intervals between the times of transit of the moon and the times of High Water on full and change days. With which, and the equation of time, the times of High Water at all the Ports here given will be obtained, by addition or subtraction, as here annexed.

EXEMPLIFICATION AND CONSTRUCTION OF THE PRECEDING TABLES.

To find the time of High Water at any place in the general Tide Table.

RULE.—To the time of high water at Glasgow on the given day, add or subtract the correction for the required place as stated in the table, and the time of high water will be obtained. When the sum of the correction and of the time of high water in the table exceeds 12 hours, subtract 12 hours, and the remainder will be the time of high water in the morning or evening of the given day, as the column denotes; when the sum of the former quantities is less than 12 hours, this sum will be the time of high water required in the evening of the preceding day, or the morning of the given day, according as the column is marked morning or evening. Or the morning and the evening tides may be found thus: If the morning tide be sought, and the sum be above 12 hours, take the time from Glasgow for the preceding evening, to which add the correction for the required place, from the sum subtract 12 hours, and the remainder is the morning tide at the place required. If the evening tide is wanted, and the sum exceed 12 hours, take the Glasgow morning tide for the given day, to which apply the correction for the required place, from the sum subtract 12 hours, and the remainder is the evening tide at the place required.

4. On 18th April 1849, the sun's longitude was $28^{\circ} 19'$, and the obliquity of the ecliptic $23^{\circ} 28'$. Required the sun's declination at noon.

To log. sine of sun's longitude at noon,	$28^{\circ} 19'$,	9.676094
Add log. sine obliquity of ecliptic,	$23^{\circ} 28'$,	9.600118

The sum (rejecting 10 from sum of indices) is the sine of
sun's declination, - - $10^{\circ} 53'$, 9.276212.

North, from 21st March till 22nd Sept., and south the rest of the year.

5. Required the time of the sun's rising and setting at Glasgow, in latitude $55^{\circ} 52' N.$, longitude $4^{\circ} 16' W.$, on 16th May 1850.

By a table of Semidiurnalares, the approximate time of the sun's rising and setting is - 3 h. 56 m. Setting 8 h. 4 m.

Longitude in time of Glasgow, + 16 + 16

Reduced time, - 4 12 8 20

The sun's declination reduced to these times is $19^{\circ} 0'$ and $19^{\circ} 10'$, and the polar distances are $71^{\circ} 0'$ and $70^{\circ} 50'$. The horizontal refraction, less sun's parallax, is $34' 17'' - 9'' = 34' 8'' + 90'' = 90^{\circ} 34' 8''$, or $90^{\circ} 34'$, and hence the following computation:

POSTAGE STAMPS.

Stamps may be procured at the General Office, Glassford Street, the Stamp Office, and the several Receiving-Houses.

The Penny Labels, at 1d. each.

The Twopenny Labels, at 2d. each.

The Tenpenny Labels, at 10d. each.

The Shilling Labels, at 1s. each.

The Penny Envelopes, 24 for 2s. 3d., or 2 for 2½d.

The Twopenny Envelopes, 12 for 2s. 2d., or 3 for 6½d.

Stamped Half-sheets of Paper, 1½d. each, or 24 for 2s. 3d.

When the Value of Stamps on the Letter is less than the amount of the Postage to which it is liable, the Letter will be charged double the amount of such difference on delivery.

Stamps may be used for *Printed Votes* and *Proceedings in Parliament*, and on Foreign, Colonial, and Ship Letters, *outwards*. Letters for *parts abroad*, posted with Stamps of less value than the full amount of Postage, if addressed to places to which pre-payment is not compulsory, will be forwarded, charged with only such amount of Postage as shall be equal to the difference between the value of the Stamps and the proper rate of Postage; but letters addressed to *places abroad*, to which pre-payment is compulsory, if posted with Stamps of less value than the full amount of Postage, will be sent to the Dead-Letter Office, to be returned, in all practicable cases, to the writer. Stamps are not permitted to be used on Letters arriving in the United Kingdom from the Colonies or Foreign Countries.

These Regulations are applicable to Newspapers, in those cases where they are liable to Postage.

If the Stamps affixed to letters are mutilated or defaced, the letters will be liable to the unpaid rate.

A Stamp which has been cut from an envelope and affixed to a letter, entitles it to pass free of charge.

Redirected Letters are charged an additional postage for each redirection, according to the Prepaid Scale.

Adhesive Stamps should be placed on the right-hand corner of the upper side of the letters, above the superscription. The most effectual plan is to dip the label wholly in water, to shake off the water immediately, and to press the label upon the letter with a piece of clean blotting paper. *When the gum is dull in appearance, it will require rather more time and moisture to make it stick firmly, than when it is glossy.* The purpose of wetting the label wholly is to counteract the tendency it has to curl up from the letter, when one side only is wetted; a tendency caused by the expansion of that side as it imbibes the moisture.

PREPAID RATES OF POSTAGE.

Letters not exceeding Half an Ounce in weight, One Penny—One Ounce, Twopence—Two Ounces, Fourpence—Three Ounces, Sixpence, and so on, two rates being added for every ounce. Inland Letters or Packets put unpaid into the letter boxes, are charged double the prepaid rates of postage. Letters insufficiently paid, either in money or by stamps, are charged with double the amount of the difference between the money paid or the stamps affixed and the prepaid rates.

LIMITATION OF WEIGHT.

A letter to pass unpaid by the post may not exceed Four Ounces. All above that weight must be prepaid, either in money or by stamps. In the event of any unpaid letter above the weight of four ounces being posted, it will be charged with double the prepaid rates of postage; if insufficiently paid, either in money or by affixed stamps, it will be charged with double the amount of the difference between the money paid or the stamps affixed, and the prepaid rates, and thus charged, "shall and may be detained and opened, and, at the option of the Postmaster-General, shall be either returned or given up to the sender thereof, or be given up to the person to whom it shall be addressed, or be forwarded to the place of its destination."—*Treasury Warrant, 22nd October, 1847.*

LIMITATION OF SIZE.

A letter to pass by the post, either *paid* or *unpaid*, must not exceed the dimensions of *twenty-four inches* in length, or breadth, or width, or depth. Any letter above these dimensions may, if *fully paid*, be *detained* and *opened*, or forwarded at the option of the *Postmaster-General*. Any letter *unpaid*, or *insufficiently*, will be taxed precisely after the scale of charge mentioned in the preceding paragraph as applicable to unpaid letters exceeding four ounces weight, and *thus charged*, be either *detained* and *opened*, and returned to the *sender*, or forwarded at the *option of the Postmaster-General*. The only *exceptions* to the foregoing regulations as to size and weight are in the case of—1. Parliamentary proceedings or Addresses to Her Majesty: 2. Petitions to either Houses of Parliament, forwarded to any Member of such House: 3. Printed votes or proceedings of Parliament: 4. Letters or packets to or from public departments or public officers in Her Majesty's service: 5. Letters, &c., to or from places abroad.

All persons sending letters by the post *unpaid*, which, from any cause whatever, cannot be delivered to the parties to whom they are addressed, are liable to pay the postage charged thereon, which may be recovered, with costs, by summary proceedings before a Magistrate.

Printed Votes and proceedings in Parliament are charged at the following rate, between places in the United Kingdom, and between the United Kingdom and the Colonies, when conveyed by packet:—

Not exceeding 4 ounces,	1d.
Exceeding 4 ounces, and not exceeding 8 ounces,	2d.
Exceeding 8 ounces, and not exceeding 12 ounces,	3d.

and so on in proportion. Prepayment optional.

Letters of Soldiers and Sailors (except on letters addressed to the United States, which are charged 3½d.,) remain unaltered, their privilege being restricted to half an ounce in weight.

Printed Books, Magazines, Reviews, and Pamphlets, (whether British, Colonial, or Foreign, may be transmitted by Post, within the United Kingdom, at the following rates:—

For each Packet not exceeding 1 lb., 6d. Exceeding 1 lb. and not exceeding 2 lbs., 1s. Exceeding 2 lbs. and not exceeding 3 lbs., 1s. 6d., and so on. Provided, however, the following conditions be carefully observed: 1st, Every such Packet must be sent without a cover, or in a cover open at the ends or sides. 2d, It must contain a single volume, (whether printed Book, Magazine, Review, or Pamphlet,) the several sheets or parts thereof, when there are more than one, being sewed, or bound together. 3rd, It must not exceed two feet in length. 4th, The Postage must be prepaid in full, by affixing outside the Packet or its cover the proper Stamps. The name and address of the *sender* may be written or printed upon it, and any other writing may be on any leaf of it, or on the binding; but all such last mentioned writing must be on one and the self same page or corresponding portion of the binding. If any of the above conditions be violated, the Packet will be charged as a Letter.

The following Instructions have been addressed to all Postmasters, and are strictly acted upon:—

“GENERAL POST-OFFICE.—On and after the 1st January, 1845, should any Letter or Packet be tendered at your Office, which you may ascertain to contain, or *which you have every reason to believe*, contains any of the following articles, viz: Any Glass or Glass Bottle; any Razor, Scissors, Knife, Fork, or other Sharp or Pointed Instrument; any Leeches, Game, Fish, Flesh, Fruit, Vegetables, or other perishable substance; any Bladder or other Vessel containing Liquid; or any article, matter, or thing whatsoever, which might, by pressure or otherwise, be rendered injurious either to the Officers of the Post-Office, or to the contents of the Mail Bags; *you will refuse to receive such Letter or Packet.*

“In the event of any Letter or Packet being taken in by you, and you do not, until afterwards, discover that it contains any Article as above described, or should any such Letter or Packet be deposited in the Letter Box, *you will not forward it on its destination, but you will detain it in your Office, and inform me, by the first Post, of the circumstances, stating the precise Address of the Letter or Packet, and*

its contents, or what you suppose them to be, when proper steps will be taken in this Department in the case, and you will be instructed in what manner to dispose of the Letter or Packet.

"Should any Letter or Packet, containing any article as before mentioned, not be discovered by the *Postmaster at whose Office it may be Posted*, but be forwarded on to its destination, the *Receiving Postmaster*, to whose Town it may be addressed, upon discovering, or having every reason to believe, that its contents are such as those alluded to, will not send it out for delivery, but will detain it in his office, reporting the circumstance by the first Post, and stating the nature of its contents when he will be duly instructed in what manner to dispose of it."

NEWSPAPERS AND SUPPLEMENTS TO NEWSPAPERS.

ALL Newspapers must be sent in covers, open at the sides, and no words or communication may be printed or written on such papers or covers after the same shall have been published, other than the name and address of the person to whom they are sent; nor anything enclosed or concealed in either newspaper or cover. News-venders only may print their names and addresses thereon. Newspapers may be examined by the Officers of the Post-Office; and if there be any breach of the above regulations, the packet is chargeable with treble the amount of postage to which a letter of the same weight would have been liable. Any person contravening the law, may, at the option of the Postmaster-General, be prosecuted as for a misdemeanor.

Clause of the Act of 1st Victoria, cap. 34, sec. 32.

"And be it further enacted, that in all cases in which a question shall arise, whether a printed paper is entitled to the privileges of a Newspaper or other publication hereby privileged, so far as respects the transmission thereof by the Post under the Post-Office Acts, the question shall be referred to the determination of the Postmaster-General, whose decision, with the concurrence of the Lords of the Treasury, shall be final."

MARKS OR WRITING ON NEWSPAPERS.

Writing or Marks are allowed on a Newspaper, passing by Post between any one Part of the United Kingdom, and any other Part, provided that a postage of one penny be paid, by means of a Stamp conspicuously fixed outside the cover or folded Newspaper. But the privilege is confined to writing or marks on the Newspaper itself, and is not to extend to the cover. Any writing or marks other than the address, on which, or (if the Postage be not prepaid as above) on the Newspaper itself, will subject the Newspaper to the same rate of Postage as that to which an unpaid letter of the same weight is liable.

NEWSPAPERS FROM THE BRITISH COLONIES

are delivered free of Postage at any place within the British dominions. Those for persons who have removed, may be forwarded by Post, free of charge, provided they have not been opened at the place to which they were originally addressed.

T THE BRITISH COLONIES AND FOREIGN PARTS.

Newspapers liable to the Stamp Duty may be forwarded to the British Colonies and Possessions, by her Majesty's Packet Boats, free of the Duty of Postage, provided the same be duly stamped, made up open at the ends, and put into any Post-Office within seven days after the day of publication.

Newspapers may also be forwarded to the Colonies, by Private Ships, for a Postage of One Penny each, and to Foreign Countries for a Postage of Twopence each, to be paid when posted, under the same regulations as to date, etc.

For days of despatch and Rates of Postage, see the Alphabetical List of Foreign Countries, commencing at page 24.

NEWSPAPERS FROM ABROAD.

Newspapers arriving from BRITISH COLONIES or "FOREIGN PARTS," to which they are despatched free, are delivered free of Postage. From places abroad, to which they are not despatched free, they are charged, on delivery, Twopence each; excepting those brought by the Closed Mail through France, which are charged Threepence

or *Fivepence* each. *All Newspapers must be printed in the language of the Country from which they are sent.*

PRINTED PRICES CURRENT, having obtained the sanction of the Lords of the Treasury, pass through the Post-Office to the *Colonies* and *Foreign Parts* at one penny each, provided they contain simply the names and prices of articles; the names and addresses of the parties dealing in such articles must be excluded. Each copy to be made up in the same form as a Newspaper, with covers open at the end.

The title of the publication must be written or printed immediately above the address; and any other writing than such address, name, initial, or mark for reference of any kind, calculated to convey information as to the party by whom such publication is forwarded, will subject the same to full letter rates of postage.

Every Price Current to be posted within *seven* days after each publication; and no one can be forwarded a *second* time without being charged with full letter postage.

All other PRICES CURRENT, AND COMMERCIAL LISTS, published in the United Kingdom, *if duly stamped, and under the weight of two ounces*, will be treated as Newspapers, and enjoy the Newspaper privileges; *the sanction of the Postmaster General having been previously obtained.*

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, France, Belgium, and Holland, are now admitted into the United Kingdom, at the reduced rate of One Penny each, whether conveyed by Packet or by Private Ship.

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, from any foreign country, except France, Belgium, Holland, Prussia, and China, are admitted into the United Kingdom, at the reduced rate of Twopence each.

PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, *passing through* the United Kingdom, are liable to a Postage of Twopence each, to be paid at the time of being posted.

PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, *passing through* France, Belgium, or Holland, to the United Kingdom, are liable to a Postage of Twopence each.

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, to China, *via* Southampton, 2d. each; *via* Marseilles, 3d. each. From China, *via* Southampton, 3d. each; *via* Marseilles, 5d. each.

REGISTRATION.

Letters, whether containing Coin, or not, can be registered, on payment of a fee of sixpence, in addition to the Rates of Postage, Inland, Colonial, or Foreign. On those for delivery in France, the charges besides the Registration fee will be the English rate to France, in addition to double the French rate. A printed Acknowledgement will be given to any person registering a letter. Registered Letters will be taken at the Bar Window and the Receiving-Houses within half an hour of the closing of the Box for the particular Mail by which they are to be dispatched. Letters for Registration, addressed to places within the United Kingdom, must be paid by affixing a sufficient number of Stamps; when addressed to parts abroad they may be paid either in money or by means of Postage Stamps, but the fee of Sixpence must always be paid in money.

In case of Foreign, Colonial, or Ship Letters, it must be clearly understood that Registration can only extend to the Port of shipment. Letters, however, addressed to France, and Letters passing through France, are exceptions to this rule, the French Post Office undertaking to provide for their security till they shall have been delivered, *if addressed to France*, and as long as they remain in the French territory, *if passing through France.*

The arrangements for carrying out the system of registration have been made with the view of ensuring the safe delivery of Registered Letters. On their delivery, the parties to whom they may have been addressed will be required to acknowledge in writing their receipt. *Parties transmitting Bank Notes, Bank Post Bills, Drafts Jewellery, &c., should invariably secure their transmission by Registration; and persons having occasion to send by Post small sums, are recommended to make use of*

THE MONEY ORDER OFFICE,

Which is open *every week-day*, Fast days excepted, from 9 a.m. till 5 p.m. The charge for such Orders is threepence on sums not exceeding *two pounds*, and six-

pence on sums between *two* and *five pounds*. No order will be given for sums beyond this amount; but if the sum to be transmitted exceeds *five pounds*, as many orders may be taken out as will make up the sum to be sent.

In cases where the personal attendance of the party to whom an order is payable is inconvenient, if the order is receipted (his or her name written in full), and the person presenting the order be able to give full information as to the Christian name, surname, address, and occupation of the person who transmitted the money, payment will be made, but not unless these conditions are complied with. Orders will not be granted in favour of any person, unless the Christian name of such person can be given by the party obtaining the order. Orders cannot now be granted in favour of the "Secretary" of any Society, the "Publisher" of a paper, &c. In cases of *Firms* the initials only are required.

The towns upon which money orders can be drawn are marked in the lists.

LIST OF POST TOWNS AND SUB-OFFICES IN SCOTLAND,

With the Hours at which the Box is closed at the General Office, Glassford Street.

When two places are mentioned, reference must be made to the latter for the Hours of Despatch.

The Offices upon which Money Orders can be granted have the letter "m" prefixed.

COLONIAL AND FOREIGN MAILS.

A single rate of Postage is given for each country.—See also Alphabetical List, page 24.

To those Countries marked "o" the payment is obligatory by the respective routes.

There being no bags despatched for London on Saturday, when any of the dates for the London, Southampton, or Dover Packets, fall upon that day, reference must be made to the alphabetical list for information whether the letters should be posted on the previous Friday or on the ensuing Sunday.

Letters for Foreign Countries, the pre-payment of which is required, when put in to the unpaid box, or left at the office with less than the full postage, are sent to the Dead Letter Office, and returned to the writer, when his address can be ascertained.

In case of the debtor removing to a different county, the decree may be enforced against him there, on being indorsed by the Sheriff-Clerk of the County to which he removes.—Judges, Sheriff and Sheriff-Substitutes of the County.

FORM OF PROCEEDING IN THE RECOVERY OF SMALL DEBTS.

DEBTS may be recovered in a summary form, before the Justice of Peace Court, to the extent of £5; and, before the Sheriff Courts, to the extent of £8 6s. 8d.

The first step is set forth, in a complaint or libel, agreeably to a prescribed form, (the Clerks of Court will provide the necessary forms,) the origin of the debt, or ground of action; and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at the same time, be obtained to cite witnesses, and to use arrestments.

The parties may appear either by themselves or by members of their families, or others whom the Court may authorise; but in no case by persons practising the profession of the law, without special leave.

If the defender fail to appear, after being cited personally, he will be held as confessed, and judgment will be given against him.

In the Justice of Peace Court, if the defender has not been cited personally, he will receive a second citation; after which, whether given personally or not, he will be held confessed, as above; but in the Sheriff Court only one citation is given.

But, when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a re-hearing, on consigning the sums decerned for.

If decree in absence be given against the pursuer, he may, within one month, obtain a re-hearing, on consigning 2s. 6d., if the case be before the Justices; and the expense decerned for, with 5s. to meet further expenses, if the case be before the Sheriff.

The case will be adjourned, upon the pursuer or defender offering a suitable excuse, or if any witness be absent.

If decree be given against the defender in his personal presence, diligence may proceed against him by arrestment instantly; and by poinding and sale, at the end of ten days.

If decree be given against the defender in his absence, poinding and sale, as above can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decerned for by instalments.

The decrees of the Sheriff may be executed in any county, on the same being indorsed by the Clerk of such county.

Any arrestments used in cases before the Sheriff must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed, on offering sufficient caution, or on showing evidence of absolvitur, or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever, before the Sheriff, for making effectual arrestments; but in such actions, both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary; or, if there be no Circuit Court, by the High Court of Justiciary, at Edinburgh, on the ground of corruption, or malice, or oppression, on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable by a reduction before the Court of Session, on the ground of malice and oppression, on the part of the Justices; and such reduction will only be competent for one year, and finding caution for costs.

No person shall be exempted from the jurisdiction of Justices or Sheriffs, in such cases, by reason of privilege as a member of the College of Justice.

In carrying Grain, the Carters shall always find sufficient Bags, and carry the whole of their load up one storey, or into a ground flat, without any assistance from the employer,

When the Cart-load is to be carried up more than one storey, the Carter shall receive 2d. per cart additional; but in this case the Carter may carry up half of the load at his own expense, his employer being at the expense of carrying up the other half.

The Carter, in all cases, shall assist in loading and unloading, but must always remain by his Cart; and, when able to do so, he must load and unload the Cart himself.

All such quantities of Goods as are to be considered as a single Cart-load, and likewise all Rates and Fares, not before especially provided for, in case of any dispute, shall be settled by the Sitting Magistrate.

III. The following Rules and Regulations shall be observed by the Carters, and shall be strictly enforced in all time coming:

1st. Every Carter shall enter his name and place of residence in a book to be kept for that purpose, in the City Clerks' Chambers, and must find security for the faithful and honest discharge of his duty, under a suitable penalty; and any Carter

plying in the streets, and neglecting to find such caution, shall forfeit a sum not exceeding two pounds sterling for each offence.

2nd. Every Carter shall be furnished with a badge, which will be numbered according to the order in which his name is entered. These Badges must be worn constantly by the Carters when at work; and they must immediately get the number which is on the badge painted on some conspicuous part of their carts, under the penalty of ten shillings for each offence.

3rd. Every Carter who shall refuse to work when not engaged, or who shall demand higher Fares than those specified in the foregoing Table, shall be liable to a penalty of ten shillings for each offence. And every Carter who says he is engaged, shall, upon being asked, specify the person by whom, and the hour at which he is, engaged; and he shall not refuse to be employed in the interval between the time he is so asked, and the hour of his engagement, under a like penalty of ten shillings for each offence.

4th. Every Carter shall be furnished with, and shall always carry about with him, a copy of these Regulations and Fares, which he shall produce and show, when required, to his employers, under a penalty of ten shillings for each offence. And,

Lastly. Every Carter is hereby enjoined, strictly to attend and conform to the Regulations in the Act 12th, Geo. III, cap. 45, and also to the Regulations with regard to the carriage of Timber, in the Act 33rd, Geo. III, cap. 104, under the several penalties therein mentioned.

REGULATIONS AND TABLE OF FARES FOR THE CITY PORTERS.

By the Police Act, Section 103, no person is allowed to ply, or work on the streets of the City or liberties, for hire, as a porter, without first entering his name and place of residence, in a book for the purpose, in the Town Clerks' Chambers, and without giving bond for the faithful and honest discharge of his duty, under such penalty as to the Magistrates shall seem proper, and without having a badge or ticket containing his number.

Persons wishing to be admitted as Porters, must apply to the Magistrates, by petitions, stating their place of nativity, age, residence, and former employment, and produce satisfactory certificates as to character. On being admitted, and before being allowed to ply, each Porter must implement the above enactment; and he shall hereafter strictly conform to, and observe the following Regulations:

1st. He shall renew his bond at the expiry of three years, and on the decease of the Cautioner, or his removal from the City; which decease or removal he shall, within eight days thereof, intimate, in writing, to the City Clerks and Superintendent of Police: and he shall also, in the same manner, and within the same time, intimate his own removal or change of residence.

2nd. He shall wear his badge or ticket conspicuously on the left breast of his coat, which badge shall be of brass, and have inscribed the words, "City Porter," and the number in the order of his admission; and he shall also have a transcript of said inscription painted legibly on the right side of his barrow or hurley.

3rd. He shall not, when unengaged, refuse employment when offered, whether on his station or not; and, if he alleges previous employment, he shall, when required, specify the nature and time of his engagement.

4th. He shall not demand higher fares than those specified in the subjoined Table; a copy of which Table, with these Regulations, and also a small plan of the City, divided into sections of a quarter of a mile, he shall always have in his possession, and produce to persons employing him, when required.

5th. When stations or districts are allotted to Porters, which shall be done by the Superintendent of Police, the Porters, except on extraordinary occasions, such as the Term time, when they are generally employed at *fittings*, shall not offer themselves for hire beyond the district assigned them.

6th. Not more than four Porters shall stand at any corner of a street or other station; and, as one station may be more advantageous for employment than another, they shall be so arranged as that each may have an equal opportunity of obtaining it. Thus, if the south corners of Glassford Street shall be deemed the

most favourable, the four Porters who have been longest in the service shall take the west corner, the next four in order shall take the east corner, the next four shall take the west corner of Stockwell Street, and the next four the east corner of Stockwell Street; and when a vacancy takes place, by the employment or absence, for a quarter of an hour, of any on the more advantageous stations, in this order, the Porter first on the next station, for the day, shall have the right of moving to it; that is to say, the first of the four at the west corner of Stockwell Street to the west corner of Glassford Street, and the first of the four at the east corner of Stockwell Street to the east corner of Glassford Street; or the first at the east corner of Stockwell Street may move to a vacancy at the west corner of Stockwell Street. The same rule shall be observed at the Cross, the south end of Candleriggs, and the north end of King Street; the south end of Buchanan Street, and the north end of St. Enoch Square; and at the other parts of the City where there are intersecting streets, or where there are two or more stations near each other.

7th. Not more than six Porters shall resort to, or take up a station at, any Coach-Office, inn, or other place at which Stage-Coaches arrive. On the arrival of Coaches, the Porters shall stand in a line on the curb-stones of the pavement; and they shall not leave the curb-stone or interfere with passengers' luggage, till singled out and engaged. They shall not importune, call out, or make any signal, to passengers for employment; and, unless especially selected by passengers, they shall take hire in rotation, each in regular succession.

8th. The object of these arrangements being to ensure good order on the one hand, and a fair opportunity of regular employment on the other, the Porters must strictly attend to their operation. For this purpose, they may establish rules among themselves, provided these are sanctioned by the Superintendent of Police, who may alter or rescind them, and provided they are not inconsistent with the Regulations hereby enacted. In the event of dispute or misunderstanding among them, the same shall be determined by the Superintendent. And, as a corrective of improper conduct, the Superintendent may remove such as do not comport themselves with propriety, to an inferior station, and promote the next in order.

9th. No Porter shall appear on his station intoxicated: if he does, he shall be removed, and the next in order shall take his place. All Porters are prohibited from standing on the pavement or crossings, to the obstruction or annoyance of the lieges; as also from smoking, when upon their stations, or in any manner giving offence. In general they are enjoined to conduct themselves orderly among themselves, and discreetly towards the public; to obey the instruction of the Magistrates; and to assist the Police in cases of emergency, and on all occasions when required by the Superintendent, or the officers acting under his authority.

10th. Porters contravening, or not conforming to these regulations, will subject themselves to a penalty not exceeding forty shillings; which penalty shall be awarded, and the Regulations enforced in a summary manner, by the Sitting Magistrate in the Council Chambers or Police Court, who may also dismiss from said employment, and deprive of their badge, such as shall offend.

CAPITAL.—£300,000, IN 15,000 SHARES OF £20 each.

THIS Society has not joined the late combination to raise the rates; and as it is a principle in its management to exclude all extreme hazard, the Society is enabled to offer the advantage of lower Premiums than are now generally charged upon various important risks.

One of its distinguishing regulations is to relax the stringent terms which have recently been imposed upon Warehousemen and others holding large Premises.

The Society is purely Proprietary.

Assurances paid in advance for Five Years, will be charged Four-and-a-half Years' Premium and Duty.

Assurances paid in advance for Seven Years, will be charged Six Years' Premium and Duty.

Losses settled liberally, and paid immediately on the amount being duly ascertained.

LIFE BRANCH.

CAPITAL.—£500,000, IN 10,000 SHARES OF £50 EACH.

The Tables of this Society have been calculated with the utmost care and consideration, and will be found to present superior, though just, advantages to Assurances upon Young Lives. They are based upon the combined experience and practical knowledge of the principal and most successful Offices, and the Directors have adopted them after cautious deliberation.

Prospectuses, Forms of Proposal, and any information respecting the terms on which Assurances may be effected, will be furnished on application to

THE Annual Meeting of the Proprietors was held on Wednesday, 28th February 1849, at the Office in Regent Street, when the Report of the Directors was read. It showed a considerable increase in the transactions of the Office, the number of Policies issued in 1848 exceeding the number issued in 1847 by 77; the number issued in the past year being 457, insuring a total amount of £200,548. The nett aggregate of Premiums received during the past year, after deducting those upon lapsed Policies, Claims, and surrenders, amounts to £97,611, being an increase of £1,344 over the amount received during the preceding year. The general Accounts for the year show an increase in the Annual Income of £4,091, the total amount for the past year being £143,869. The Capital amounts at the present time to £1,229,689; of which sum no less than £1,156,783 is exclusively appropriated to the holders of Policies. This Capital has been accumulated, after the addition of a Bonus to Policies, amounting, in some cases, to 109 per cent., thereby more than doubling the amount originally insured. The Directors had received the opinion of an eminent actuary, that the *Capital of the Society bore a higher proportion to its liabilities than that of any other Company instituted for Life Assurance.* To extend the business of the Society, a Branch Office had been opened at the Royal Exchange Buildings in the City, and other arrangements had been entered into for making the advantages offered by this Institution to the public more extensively known.

Prospectuses and full particulars may be obtained upon application to the Agent of the Office in all the principal towns of the United Kingdom; and at the Head Office, No. 50 REGENT STREET.

JOHN A. BEAUMONT, Esq., *Managing Director.*

THE Annual Meeting of the Proprietors of the County Fire Office was held at the Board-room in Regent Street, on Tuesday, 27th Feb., 1849, and was very numerously and influentially attended. The Report was highly satisfactory, exhibiting a steady increase in the business of the Office; and the Accounts showed a considerable profit on the year's transactions, notwithstanding some heavy drawbacks, by reason of extraordinary expenses, and the prevalence of incendiary fires in some rural districts. Some suggestions of Mr Beaumont, the Managing Director, for still further extending the business of the Office, and for securing more perfect efficiency in every branch of its management, as well as for lightening the labour and increasing the comforts of the Clerks, had been adopted by the Board with every prospect of complete success. In consequence of the large accumulation of surplus capital, the Directors recommended that the *Insured* might participate in the general prosperity of the Society, and that the septennial dividend or return to them should now be *fixed and guaranteed to them at the increased rate of Twenty-five per Cent. on the amount of their contributions, independent of the profit or loss upon the business of the Society.* These announcements were welcomed with loud applause, and the Meeting, which was unanimous in feeling, adopted the recommendations of the Directors *nem. con.*; and, after some discussion on points connected with the business regulations of the Office, separated, greatly pleased with the satisfactory and cheering statements which had been submitted to it. The Chair was ably filled by Major-General Fox, M.P., who, at the conclusion of the proceedings, received the warm thanks of the Meeting, for the admirable manner in which he had presided over the business, and for the interest he had expressed in the prosperity of the Office.

Prospectuses and full particulars may be obtained upon application to the Agents of the Office in all the principal towns of the United Kingdom, and at the Head Office, No 50 REGENT STREET.

FIRE INSURANCE.

The usual moderate Premiums of 1s. 6d., 2s. 6d., and 4s. 6d., are taken for Common, Hazardous, and Doubly Hazardous Risks. Special Insurances at increased Rates.

LIFE INSURANCE.

The Non-Participation Department embraces every description of Insurance on approved Lives, at the lowest Rates of Premium consistent with safety.

The Participation Scheme was begun in 1840. The Premiums are much more moderate than these usually charged, so that by transacting with this Company an important saving is effected, equivalent in many cases, to the highest amount of Bonus added by any office for the first five years. Notwithstanding this, a large profit has already been realized. By the first Declaration of Bonus, as at 10th February, 1847, vested Retrospective additions at the rate of $1\frac{1}{2}$ per cent, per annum, was made to all Policies then connected with the Scheme, together with Contingent Prospective additions at the same rate to such of these Policies, including vested Bonuses, as may become claims before next Investigation. This is to take place at 10th February, 1852, and, from the experience of the last two years, during which the Mortality in connection with the Participation Branch has been extremely light, the results are expected to be satisfactory in the highest degree.

THIS COMPANY (which has carried on the business of Life Assurance for upwards of twenty-five years with great success) combines, in the most beneficial way for the Assured, all the advantages of the different systems on which Life Offices have generally been formed.

The Participation Plan of the Company, from the large proportion (*Four-Fifths*) of the profits allocated to the assured, presents the best and surest Investment to all those desirous of accumulating beneficially for a family provision; and the equitable principles on which the Division of Profits is made, confers the highest benefits on all first-class Lives.

The Non-Participation Plan, in all cases of Loans or other money transactions where an Assurance is necessary or advisable, enables a party to obtain the security of a Life Policy of the most undoubted description, on terms extremely moderate.

Prospectuses, containing all the various modes by which Insurances may be effected, and every information obtained, at the Head Office, or the various Agencies of the Company.

THE TENTH ANNUAL GENERAL MEETING of the ASSOCIATION was held within the Head Office, 2 Hanover Street, Edinburgh, on the 10th instant, in terms of the Charter.

The following are Abstracts of the various Statements submitted to the Meeting:—

1. During the year ending 5th April, 1849, **504 New Policies** have been issued by the Society.
2. These Policies (exclusive of a few Annuity Transactions), comprehend Life Assurances to the amount of **£221,238**; the Annual Premiums being **£7027, 16s. 8d.**
3. These new transactions of the year exceed the transactions of the previous year by 196 Policies, and £92,310 of Assurances.
4. The *Mean or Average* Mortality experienced during the last two years, (which period has been remarkable for a high rate of mortality amongst the popula-

tion), has been 13 in number, assured for £7560, being considerably lower than the number contemplated in the Tables used by the Society.

5. A Branch Office has been established at London, and placed under the management of a Board of Directors, with a Resident Secretary. The operations of the Branch have been conducted with much harmony and efficiency, and the business transacted has considerably exceeded the anticipations of the Directors.
6. The usual valuation of the Assets and Liabilities of the Society has been computed; and the Directors have to intimate that a Return will be made, out of the Surplus, to the holders of Policies, effected on or before the 5th of April, 1845, of 35 per cent., (that is, upwards of one-third) of the current year's premiums.

THIS Office was Established in 1841, and possesses *Tables formed on a scientific basis for the Assurance of Diseased Lives.*

Policies of twelve months' standing are not affected by *suicide, duelling, etc.*, and Assigned Policies are valid from the date thereof, should death ensue from any of these causes.

This is an advantage not offered by any other Assurance Company. In some offices the value of the Policy or the premiums paid on it are returned *in the event of death by suicide, duelling, etc.*, but in this Society the *whole amount assured will be paid.* This fact is of too great importance to be overlooked.

Policies issued by this Society give the Person whose life is assured permission to go at any time beyond the limits of Europe, on the payment of certain, but small and fixed, rates of Premium, which are endorsed on the Policy at the time when first issued.

Should the person whose life is assured proceed to a Foreign Climate without the knowledge of the party interested in the Policy, the interest of the latter will not be affected, if within fourteen days after the fact becomes known to him intimation of it shall be given to the Society.

The two preceding conditions render *Policies issued by this Society equal to Bonds as securities in pecuniary transactions*, since no accident or misconduct on the part of the person whose life is assured can render the Policy void.

Healthy Lives, both at home and in Foreign Climates, are Assured with as much facility and at Lower Rates than at most other offices. And a capital of Half-a-Million sterling, fully subscribed, affords a complete guarantee for the fulfilment of the Company's engagements.

THE SCOTTISH PROVIDENT INSTITUTION is the *only Office in which the benefit of MUTUAL ASSURANCE can be obtained at a moderate Premium.* The Premiums are about a fourth lower than in the other Mutual Offices; so that the same Premium which at age 30 is charged by them for an Assurance of £1000, will secure a Policy in this Office for £1230. The Whole Profits are divisible among the Assured, on a new and equitable principle, peculiarly favourable to good lives. That principle is, *that the Surplus should be reserved for those Members whose Premiums, with accumulated interest, amount to the sums in their Policies,* instead of being frittered away among Policies of short duration, on which there is a *loss*, and not a profit, to the common fund. At the First Investigation, a Surplus of £30,485 was declared, *after providing for all claims.*

By the second scale, he may secure the same sum at death, for a yearly Premium of £2 14s. 6d., *ceasing on his attaining the age of Fifty*, being thus entirely relieved of payment before he has passed the prime of life, and that for nearly the same Premium as other Mutual Offices require for the whole of life.

Land Surveying Chain-Maker, and Plain and Fancy Wire Worker,
10 BUCHANAN BUILDINGS, 105 STOCKWELL STREET, GLASGOW,

RESPECTFULLY returns his unfeigned thanks to those Gentlemen who have favoured him with their patronage since he commenced in the above line, and hopes, by prompt attention to their orders, as likewise making every article of the very best materials and superior workmanship, still to merit a continuance of their orders.

A. D. would beg leave to say to those Gentlemen who have not as yet given his Chains a trial, that having been practically engaged in Chain-Making for upwards of twenty-five years, and by a thorough knowledge acquired by study and so long practice he has made during that time many decided improvements on his Chains, which have secured for them a fame, unequalled throughout the three kingdoms. He for these reasons requests a trial, and submits the following Abridged List of Cash Prices for their inspection; those wishing a full List may have them sent by Post.

A. D. warrants both accurate and made of the very best materials, only those Chains having Alexander Dick, Chain-Maker, Glasgow, on the middle teller, or counter.

Foot-Link Surveying Chains.

100 feet long, 100 round-eyed links, made of No. 8 wire, 200 round rings, and made of No. 7 wire, with superior made strong wire handles, with brass tops and copper swivels, 10s. 6d. each, and with a set of No. 5 link counters, 1s. extra.

A. D. would particularly recommend the Chains with long-eyed links, filed joints, 300 oval rings, and both made of No. 7 wire, as being the best he makes; warrants them not to crank, twist up, nor so apt to stretch as those with round-eyed links and round rings, being made in a superior style.

74 feet long, 100 round-eyed links, made of No. 8 wire, 200 round rings, and made of No. 7 wire, with superior made strong wire handles, with brass tops and copper swivels, 9s. each.

BRYDEN & SONS,

WITH reference to the Circular recently issued by the Post-Master-General, earnestly recommending the Inhabitants of Towns and Cities to provide themselves with a LETTER-BOX attached to their Doors, to facilitate the rapid delivery of Letters, respectfully intimate that they have recently Registered

A SAFETY LETTER-BOX,

so constructed as effectually to prevent the theft of the contents, a liability to which all other Letter-Boxes are subject. The construction is exceedingly simple, the appearance neat, and the price moderate.

Letter-Boxes of the usual description can be Altered to the Safety Plan.

From the Edinburgh Evening Post and Scottish Record.

“Messrs. Bryden & Sons’ Safety Letter-Box is really what its title implies. It is a box which cannot be *picked*, and, what is a valuable feature, this is effected by means which are self-acting, and of the simplest kind. This improvement entirely obviates all objection to the universal adoption of Letter-Boxes by Men of Business and others, and comes very opportunely in aid of the Post-Master-General’s appeal to that effect for the important purpose of expediting the delivery of Letters.”
